EDUCATION

BACHELOR OF ENGINEERING

Mumbai University
Information Technology

CGPA: 8.94   2020 - 2024

HIGHER SECONDARY SCHOOL

STATE BOARD
PCM

71.34%   2018 - 2020

SECONDARY SCHOOL CERTIFICATE

STATE BOARD

74.00%   2018

SKILLS & PROGRAMMING LANGUAGE

- Data Structure and Algorithm
- C++
- REACT JS
- HTML
- CSS
- JAVASCRIPT
- MYSQL
- BLOCKCHAIN
- JAVA BASICS
- PYTHON BASICS

PROJECTS

STUDENT PORTFOLIO

Developed an all-in-one student portfolio application using **Python (Tkinter)** and **MySQL**, offering a comprehensive platform for streamlined access to student details. Facilitated attendance tracking and defaulter list generation for teachers, while empowering students to manage curriculum and extracurricular activities seamlessly.

MEDI-BLOCK

MediBlock is a decentralized **blockchain** system that securely stores and presents patients' data. Developed using **React.js**, **JavaScript**, and **Solidity**, it ensures the privacy and integrity of medical records while enabling seamless access and sharing among healthcare providers.

PORTFOLIO WEBSITE

Developed dynamic web applications using **React JS**, showcasing my achievements and progress, reflecting my dedication and proficiency in creating dynamic web applications. and programming

EXPERIENCE

AWS CLOUD

01/06/2022 - 30/06/2022

Designed and implemented a robust reverse proxy solution utilizing AWS VPC, EC2 instances, Internet Gateway, Nginx auto-scaling, and load balancing. Orchestrated a secure and high-performing infrastructure to efficiently manage incoming traffic, ensuring seamless distribution and resource optimization.
